SUMMARY

I'm a highly skilled front-end developer with expertise in crafting responsive, user-centric web applications using modern technologies such as HTML5, CSS3, JavaScript (ES6+), TypeScript, React, Next.js, and Tailwind CSS. Proficient in version control systems like GitHub, GitLab, and Bitbucket. With a strong foundation in computer engineering and a passion for delivering high-quality, scalable software solutions

EDUCATION

B.Eng in Computer Engineering	Jan '23
OLABISI ONABANJO UNIVERSITY	Ogun State, Nigeria

SKILLS

- **Frontend:** HTML5 | CSS3 | JavaScript (ES6+) | Typescript | React | Next.js | Tailwind CSS | Angular | Node.js
- **Version Control:** GitHub | GitLab | Bitbucket
- **Project Management:** Jira, Monday.com, Asana, Trello
- **Others:** Microsoft 365 including Excel, Word, PowerPoint and Google Workspace including Sheets, Doc, Slides, Analytics
- **Soft Skills:** Corporate Communication | Problem Solving | Team Collaboration | Time Management | Leadership | Analytical and Critical Thinking | Project Management

PROFESSIONAL EXPERIENCE

Frontend Engineer	Jan '24 - Oct '24
SCAVENGE	Remote

- Transformed design mockups into high-quality, responsive frontend components, optimizing performance with JavaScript, TypeScript, React, Redux Toolkit, and CSS Modules.
- Played a key role in developing an upgraded version of the company's software's, leading to a significantly improved user experience and increased revenue within 6 months.
- Collaborated closely with stakeholders and designers to translate requirements into effective software solutions, leveraging Figma for design collaboration and JIRA for project management.
- Utilized testing tools like Jest, React Testing Library, and Cypress to ensure high code quality, maintainability, and user satisfaction.
- Streamlined development and deployment processes via GitHub and CI/CD pipelines, enhancing efficiency and business outcomes.

Frontend Engineer	Mar '23 - Dec '23
DewPay	Remote, Lagos

- Developed intuitive and visually appealing user interfaces for web applications using React.js and Next.js.
- Collaborated closely with UI/UX designers and backend developers to ensure seamless integration and functionality.
- Provided technical support, managed software deployments, ensured system security, and maintained network infrastructure across various platforms to support operations.
- Optimized the frontend application for quick loading, responsiveness, and a smooth user experience.
- Conducted code reviews and implemented best practices to maintain a high standard of code quality

Frontend Developer	Nov '22 - Mar '23
Imprinno Solutions	Lagos, Nigeria

- My core focus is on creating an exceptional user experience by building intuitive and visually appealing interfaces that make imprinno application easy to use
- I work diligently to optimize the frontend app to ensure quick loading times, and enhance responsiveness, and overall performance to provide a seamless user experience
- I utilize my expertise in frontend development to craft clean, concise, and maintainable code that adheres to best practices, industry standards, and guidelines
- Collaborating with my team, I actively participate in code reviews, providing feedback that focuses on enhancing code quality, maintainability, and scalability

Frontend Developer	Feb '22 - Nov '22
Michofat Konsult Limited	Remote, Lagos

- Converted designs and mockups into high-quality frontend components using JavaScript and React.
- Consumed APIs within React applications for seamless data integration.
- Implemented Firebase for database, authentication, cloud storage, and hosted React applications on it.

- Deployed React applications on Google Cloud Platform (Google App Engine).

App testing

Aug '21 - Feb '22

Ox Solution

Remote, Lagos

- Tested the app's features, identifying and reporting defects to the development team.
 - Collaborated with cross-functional teams to resolve bugs and improve overall app quality
 - Conducted thorough testing of a newly developed e-commerce mobile application to ensure optimal functionality, usability, and performance.
-
